

Comfort Zone

by GOLDEN

LOWER BODY

Comfort Zones 1 – 4 provide an ergonomic comfort experience with an emphasis on head and back support. Each Comfort Zone can be adjusted independently by using the exclusive AutoDrive hand control.

The patented four-way motion of the seat helps provide relief to muscle and joint pain by placing your lower body in a supported ergonomic position.

The independent movement of the backrest allows stress and strain to be released from your upper body by offering adjustable support for your back and shoulders.

The upward motion of the adjustable headrest allows for tension to be released from your neck and shoulders by supporting your head placement, while encouraging the natural shape of your spine.

The custom and firm support of the adjustable lumbar can take pressure off your spine while giving your back muscles the chance to rest and rejuvenate.
