## PATIENT-DRIVEN FIT

**Personalized AutoTransfer Height** enabled by staff control* for safer resident-specific mobility.

**Unique 30°/45° comfort pauses** help to improve sleep, circulation and respiratory therapy adherence.

**Adaptable length extensions and width expansions** serve more residents.

## PERFORMANCE

**Hand pendant with integrated hook** meets the challenges of institutional care and has back-lit tactile buttons for dark rooms.

**Sleep Mode feature** saves 80% more power when bed is not in use.

**Faster bed movement** enables caregivers to react in a moment of need and to reduce fall hazard.
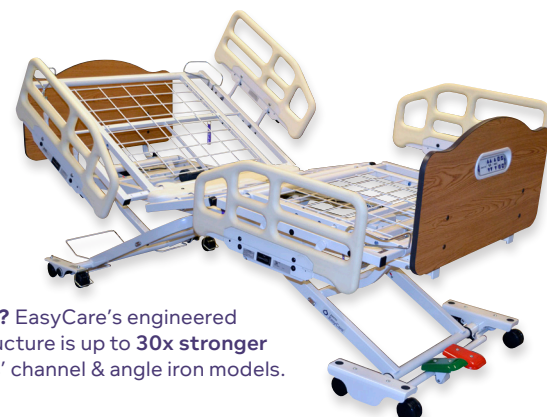

## SAFETY

**Patented arched leg†** offers industry-leading low bed height that mitigates fall injury.

**LED SafeLight*** provides floor visibility in three soft intensities to safely get out of bed at night.

**Height range of 7" to 30"** reduces the risk of patient injury and caregiver back strain.

**DID YOU KNOW?** EasyCare's engineered toroidal steel structure is up to **30x stronger** than competitors' channel & angle iron models.

**SWL** **SAFE WORKING LOAD: 600 LB**
